

## Feedback Loop

What makes the Karma & Cents model effective is continual feedback.

**Directions:** Answer the questions below reflecting on how the different case studies presented integrated feedback loops into their design process. What would the feedback loop look like for your project?

<b>I. Clarify what success looks like:</b>
<p>A. What are the goals you want to achieve?</p>    <p>B. How do you think they can be achieved?</p>
<b>II. Track Progress:</b>
<p>A. What progress measures do you want to use?</p>    <p>B. What progress has been made so far?</p>

**III. What do you most need to learn?**

A. Should you do an evaluation to fill in knowledge gaps?

B. What kind of evaluation will work for you?

**IV. Interpret the Evidence and Revise Approach:**

A. What can you learn from progress measures and evaluation?

B. Do the results suggest to change anything?

**V. Communicate Lessons for Wide Use:**

A. What can others learn from your experience?

B. How would you like to share your experience?
